Technique Sheet

BlockBusters 2025 #108

Difficulty: ★★★★★

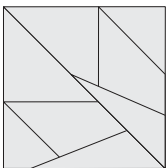

Everything you need to know to make the units required for this block can be found in the instructions that came with the Rapid Fire® Lemoyne Star and Wing Clipper® I tools, along with the Blooming Lemoyne technique sheet. There are charts, step-by-step graphics, and directions. Use the chart to find the information you need for the finished size units you want to make, follow it through to find what you need to cut to make those units. Then work your way through the instructions.

The combination of Blooming Lemoyne Star quadrants and Flying Geese units gives you a block that looks very unique. Work your way through the Blooming Lemoyne technique sheet to the step where you sew your pairs of trimmed star points together. Once you sew your pairs together, you will trim the quadrants to the size designated in the chart on the following page using the Tucker Trimmer® I. Remember, you have already trimmed the “center point” sides of the the quadrant, so the only trim you need to make is on the “outside edge” sides. Note that the Blooming Lemoyne quadrants will not line up with the seams of the Flying Geese!

You can make your A and B star points the same color, similar to the technique sheet, or you can make them different colors the way they are shown in some of the blocks shown here. Try substituting another Lemoyne Star technique for the Blooming Lemoyne to give the block a completely different look.
