Notes

- In the diagrams, "BG" stands for "background"

- WOF = Width of Fabric
- Please read through the entire pattern before starting your quilt
- When piecing fabrics, place them right sides together
- Yardage and cutting instructions assume yardage is at least 42" wide

CHOOSING YOUR FABRIC

This pattern is a great way to show off your fabrics that you don't want to cut into tiny pieces. There are a couple of things to keep in mind to make sure that your quilt is successful:

- Fabrics that are very similar in color shouldn't cross each other - have them run parallel instead.
- If you have prints where a seam would be noticeable (such as stripes or larger scale prints) use them for Fabrics A-E for the baby size quilt and Fabrics A-G for the lap or twin size quilt.
- Choose a Fabric O that contrasts with all of the other fabrics.

You can use fat quarters for any of the 1/4 yard cuts in the pattern.

STRIP PIECING

DO NOT SKIP THIS SECTION. Make sure that you cut your fabric pieces 6.5" wide like shown in the table below. The 8.5" sizes listed in the tables and diagrams of the following sections include the sashing fabric.

Start by cutting the number of width of fabric strips for each fabric shown in the table below. Further cutting instructions are in each corresponding section.

	# 6.5" X WOF STRIPS														# 1.5" X WOF STRIPS
