CUTTING INSTRUCTIONS:

Read all instructions before cutting fabrics. Place Paper Piece on fabric, and trim at least a 1/4" seam allowance around the shapes. Plan out your fabric placement before cutting, or cut an assortment of fabrics for each of the shapes for a scrappy look. Acrylic templates are available in a variety of seam allowance options and are great for fussy cutting!

General Assembly Instructions:

1. Baste all Paper Pieces according to the Basic Instructions.
2. Join the Paper Pieces together, working from the center of the block towards the outside. Follow the diagram as shown in Fig. 1. for value placement.
3. Attach corner squares along the outer edge. Please note that the squares on-point are shared between the blocks; leave them off of two sides as you form your blocks so that they are completed as the rows are connected.
4. After your blocks are joined together, attach border strips to finish off your quilt, using appliqué to attach the blocks to the outer edge.
